

# ATLANTIC YACHTING

## SAIL & POWER TRAINING Langebaan, South Africa

### RYA/MCA YACHTMASTER Coastal/Offshore Shorebased (theory)

*This course is aimed at the more experienced sailor*

**NB!! PLEASE READ CAREFULLY**

This is an advanced course in navigation and meteorology for candidates for the Coastal Skipper and RYA Yachtmaster Offshore Shorebased Certification.

The syllabus makes some provision for the revision of subjects in the Day Skipper Course, but those who have not acquired the knowledge set out in the Day Skipper Course are unlikely to be able to assimilate all the subjects covered in this advanced course in the time available.

The assumed level of knowledge before starting this course is the Day Skipper Shorebased Course.

We highly recommend that you do some pre-reading

*\*\*RYA International Regulations for Preventing Collisions at Sea (eBook)\*\** from RYA website.

*\*\*Students are required to have **full knowledge of the regulations** before completion of the shorebased course for Coastal Skipper and Yachtmaster Offshore. There is however, insufficient time available in the course to teach the subject fully.*

The RYA book of *International Regulations for Preventing Collisions at Sea (G2)* or *A Seaman's Guide to the Rules of the Road* are useful books for study of the regulations.

Courses are presented throughout the year; please contact us for dates and prices

Pre Requisites	: Listed above
Duration	: 7 days
Minimum Age	: 17 years old
Where	: Langebaan
